EDUCATION

Texas A&M University, Mays Business School

College Station, Texas

Master of Science in Management Information Systems / GPA: 4.0

May 2027

Mumbai University

Mumbai, Maharashtra

Bachelor of Engineering in Electronics / CGPI: 9.03

June 2022

EXPERIENCE

Accenture

Mumbai, Maharashtra

Custom Software Engineering Analyst

November 2022 – June 2025

- Optimized product onboarding by leading **full-stack development** of the Navigator Onboarding Tool using **Java, Spring Boot, ReactJS, Kafka and Camunda**, cutting onboarding time significantly through scalable **API workflows** and improved user experience.
- Enabled real-time data integrity by designing a comparator dashboard and **Java-based utility** to validate **130+ field** across Base24 and CDP systems, reducing manual effort significantly and strengthening audit readiness.
- Improved financial transaction performance for VISA/MasterCard applications by executing **JMeter and LoadRunner** performance testing, ensuring faster, more reliable processing for millions for users.
- Showcased global innovation by creating **Life Support**, a web prototype using **ReactJS, Node JS and MongoDB**, ranked Top 20 worldwide in the GTIC competition.

TCR Innovation

Navi Mumbai, Maharashtra

Java Developer & Campus Ambassador

June 2021 – September 2021

- Developed a Library Management System using **Java, SQL, HTML and CSS**, modernizing backend logic and improve user accessibility.
- Served as Campus Ambassador, spearheading student outreach and promotional campaigns, strengthening **communication and leadership skills**.

Nuclei Technologies

Mumbai, Maharashtra

Data Analyst Intern

December 2018 – January 2019

- Applied machine learning algorithms in **Python and R** to automate processes and improve accuracy over multiple projects.
- Designed and implemented alternative approaches for complex problem-solving, demonstrating adaptability in fast-paced analytical environments.

PROJECTS & LEADERSHIP

Vivekanand Education Society's Institute of Technology

Mumbai, Maharashtra

Project Lead

July 2021 – March 2022

- Directed a team to build a **Hospital Management System** using the **MERN stack** (MongoDB, Express JS, React JS, Node JS) with **AWS integration**, digitizing patient data and reducing administrative workload.
- Presented the project at **NAAC Committee Exhibition**, earning recognition for innovation and leadership.

Volunteer & Extracurriculars

- Volunteered for the **Covid-19 Helpdesk**, assisting thousands during the pandemic.
- Active organizer of Praxis technical/cultural events and GTIC competition initiatives.
- Passionate about sports (Table Tennis, Cricket, Volleyball) and trekking, developing teamwork, resilience and leadership skills.

SKILLS, ACTIVITIES & INTERESTS

Languages: Fluent in English; Conversational proficiency in Hindi & Marathi

Technical Skills: Java, Spring Boot, Python, React JS, Node JS, Express JS, JavaScript, HTML, CSS, SQL, MongoDB, Kafka, Camunda, JMeter, LoadRunner, R

Certifications & Training: Microsoft Azure certified (AZ-900). Python and DBMS courses from Coursera

Awards: ACE Award, Pinnacle Award, Flyers Degree (Cambridge University)

Interests: Trekking, competitive sports, volunteering and leveraging technology to solve real-world problems
